EXECUTIVE SUMMARY

IT and cybersecurity undergraduate with strong fundamentals in operating systems, networking, and core computer systems, combined with hands-on experience in troubleshooting technical issues and supporting stable IT operations. Actively builds real-world projects to strengthen system reliability, practical implementation, and root-cause problem solving.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL, C++, TypeScript, HTML, CSS, Svelte

Security: Linux, Nmap, Burp Suite, Wireshark, Kali Linux, Metasploit, Nessus, John the Ripper, Hashcat, Virtual Machines (VMs)

Cloud / DevOps: Git, GitHub, Docker, AWS, Azure, Google Cloud

IDE / Tools: Visual Studio Code, Arduino IDE, Google Antigravity

PROJECTS

Bridge – USB Physical Security System

Designed and developed a Windows-based USB security application to mitigate malicious USB threats through endpoint control, real-time monitoring, and intelligent risk analysis. Implemented role-based access control with email-based OTP authentication and OTP abuse detection. Built USB port control, behavioral monitoring, malware detection, and automatic quarantine mechanisms. Integrated incident alerting, audit-ready logging, and a real-time security dashboard to support monitoring and incident response.

EXPERIENCE

Cybersecurity Intern (VAPT) – Supraja Technologies Private Limited (May 2025 – July 2025)

- Supported vulnerability assessment and penetration testing for web applications and systems.
- Conducted reconnaissance, security testing, and validation using industry-standard tools.
- Assisted in analysis of findings, technical documentation, and assessment reporting.

EDUCATION

B.Sc. – Computer Science with Cybersecurity, SRM University

CGPA: 9.525 / 10

Higher Secondary Education (HSC), Sri Venkateswara Matriculation Higher Secondary School

Score: 72.17%

ADDITIONAL INFORMATION

- Digital Media Executive Member for college campus life initiatives.
- Executive Member and Head of the Discipline Committee, Department of Computer Science with Cybersecurity.
- Actively participated in hackathons, Capture The Flag (CTF) challenges, technical events, workshops, and industry seminars.
